TEST - BUT THIS IS NOT DONE. Just wondering if anyone wanted to edit Krista's bio. I changed a few things and still think there is some grammar changes needed to be made.

April New Hires

Get to Know NRS Employee Krista Wade

I grew up in central Ohio, with a passion for horses. When I was a kid I rode any horse, carousel, pony ride, horse and carriage, etc. that I could find! After high school, I went to the University of Kentucky and competed in 3 day eventing for a year before pursuing horse training/clinics full time. I was presented with the opportunity to study under a great horseman back in Ohio and I just couldn't pass it up! So for 5 years I lived, eat, slept, and breathed horsemanship. I did everything from picking up rocks, landscaping, and tractor work, to vet care, daily horse operation tasks, foaling out mares, arena work, you name it, we did it! This taught me to be a well-rounded horseman and learn how to help people through any situation that came at them! I learned throughout those years how to train people and horses. I traveled the country,

and taught hundreds of clinics during that time.

After moving to Stephenville, and meeting my husband Kyle Wade, we decided we wanted to slow down and raise a family and have a more "normal" lifestyle (those of you who know us know "normal" our lifestyle is). That is when we were blessed with the opportunity to work for NRS. David Isham and Mike Henderson allowed us the best opportunity we could have asked for, by being able to work in the western industry along with being able to enjoy our family and horse friends. I have been so lucky over the last 6 years to be associated with the best company I have ever worked for, NRS Trailers.

My husband has found a great home as well with NRS as the Saddle Manager, and we couldn't ask for more! The icing on the cake was for David and Mike to allow me to also continue to do what I love to do which is train horses and teach horsemanship clinics/lessons! I love

helping people build the foundation of their horses and help them to understand why a horse does what they do and how to work them through any problems.

During my clinics I get to meet so many great people and work with many horses and see HUGE progress in just a short amount of time. Its amazing when you can break the steps down for people and give them tools to teach their horses how everything can come together! We learn to be safer around our horses, gain their respect, and in turn the horses will just do more and more for their owners in and out of the roping arena! It's a great feeling and I am so lucky to be able to do what I love every day!

NRS Employee Night
