The 10 day show required 5 days of set up and 2 days of tear down. We displayed everything from truck campers to a \$220,000 living quarters trailer and for the first year had a gorgeous black Kenworth stretch truck done by Schwalbe Conversions. With the support of 8 of our outstanding vendor partners and all of the great employees at the trailer dealership we were able to pull this off without a problem.

Look for us at upcoming shows in Fort Worth in January, first at the Ft. Worth RV Show from Jan 7th -10th at the Tarrant County Convention Center and the Ft. Worth Stock Show & Rodeo at the Will Rogers Complex from Jan 15th - Feb 6th.

Historical Story of the
Four Thieves

The thieves were actually spice traders who imported spices, including cinnamon and clove from India. When the Black Plague hit, all international shipping and trade was closed down. Unable to do business, these spice traders quickly ran out of money decided to loot the home and bodies of the plague victims, since most people were afraid to touch the dead bodies

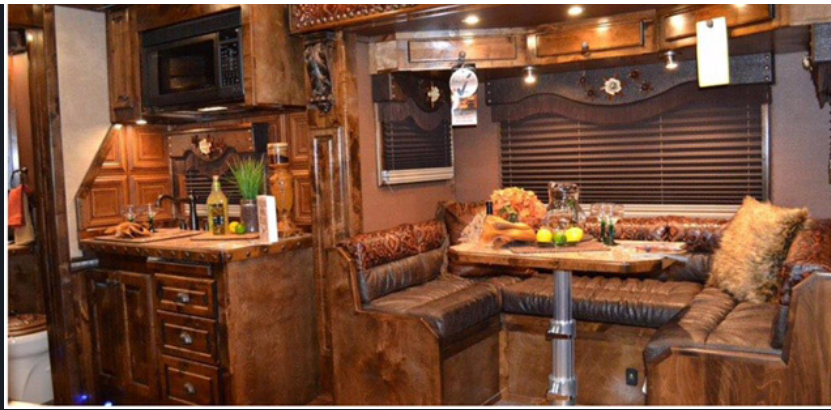

They would take clothes, jewelry, pots and pans, and then barter or trade them for food and money. They used a mixture of oils to prevent themselves from getting the plague.

They were able to set up a very lucrative pawn business. The King heard about the story of the thieves, and wanted to know their secret recipe.

Constables captured them & brought them before the King. He gave them a choice to either share their secret formula of "immunity" or be burned at the stake. The four thieves decided to share their secret formula with the King. The King immediately posted the thieves secret formula all over the town. Hence the story of the four thieves.
